

PRINCE ALBERT

Full Stack Developer (React.js · Node.js · SQL)

Salem, Tamil Nadu, India | princeprince45613@gmail.com | +91 7502138129

[linkedin.com/in/prince-albert1217](https://www.linkedin.com/in/prince-albert1217) | github.com/Prince121711

PROFESSIONAL SUMMARY

Full-stack developer with hands-on production experience across React.js, Node.js/Express, and SQL-based systems. Founder and lead developer of Lumen Academy, a live NEET/JEE exam-prep platform built on React, TypeScript, Express, PostgreSQL (Prisma ORM), and Firebase Auth. Additional grounding in Java/Spring Boot and applied data science. Comfortable owning a feature end-to-end, quick to pick up new tools, and focused on clean, maintainable, production-ready code.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, C

Frontend: React.js, HTML5, CSS3, Responsive/Component-Driven UI

Backend & APIs: Node.js, Express.js, Spring Boot, REST APIs, FastAPI, MVC Architecture

Databases & ORM: PostgreSQL, MySQL, Prisma ORM, Supabase

Auth & Concepts: JWT & Firebase Authentication, OOP, Data Structures & Algorithms, System Design fundamentals

Tools: Git, GitHub, VS Code, IntelliJ IDEA, Playwright (E2E testing)

EXPERIENCE

Developer Intern — Lumen Academy (Personal Venture)

Ongoing

React · TypeScript · Express · PostgreSQL · Prisma ORM · Firebase Auth

- Architected and built a full-stack NEET/JEE exam-preparation platform end-to-end, from database schema to production UI.
- Led a backend stabilization effort, migrating fragmented Supabase/localStorage persistence to a unified, Prisma-backed REST API with versioned migrations, and designed a multi-provider AI abstraction layer (switchable via env config).
- Validated platform reliability with an automated Playwright end-to-end test suite.

Data Science Intern — Tech Vedhu

Aug 2024 – Sep 2024

Salem, India

- Built end-to-end Python data pipelines covering collection, cleaning, feature engineering, model training, and evaluation.
- Performed data preprocessing and exploratory analysis with Pandas, NumPy, Matplotlib, and Seaborn to surface trends, correlations, and anomalies in large datasets.

PROJECTS

Tax-Shield: AI Tax Compliance Assistant —

Python · FastAPI · OCR · Machine Learning · REST API

- Built an AI-powered tax compliance system for micro-merchants, combining OCR and machine learning to automate invoice and GST data extraction.
- Published as corresponding author in BMC Research Notes (Springer Nature) after multiple rounds of technical peer review.

AI-Driven Policy & Compliance Intelligence System — TCS iON Capstone

Python · Streamlit · FastAPI · Sentence-Transformers · NLP

- Built an AI-driven compliance intelligence system using sentence-transformer embeddings to semantically match policy documents against regulatory requirements.
- Exposed a FastAPI backend for document analysis and served an interactive Streamlit dashboard for compliance review.

EDUCATION

B. Tech, Artificial Intelligence and Data Science — Gnanamani College of Technology

Aug 2022 – June 2026

CGPA: 8.3/10

Higher Secondary (XII & X) — Mount Mary Matriculation Higher Secondary School — **77.5%** (2022) & **78%** (2020)

CERTIFICATIONS & ACHIEVEMENTS

- TCS iON Career Edge – Certificate Program on Graduate Engineer Trainee
- Java for Backend Development (with REST API) — ICT Academy
- Java Programming & Design Thinking — NPTEL
- Machine Learning — Columbia University
- AI-Native Networking Workshop, NIT Trichy.
